Note: All eastbound shipments were dispatched from Guben.

Recently, hard coal trains arriving at Guben were about 60 to 80 percent broken up into smaller trains. Hard coal arriving at Fuerstenberg mostly arrived by water.

25X1

Comment. Compared to the last reported period, hard coal imports from Poland increased from a daily average of 225 carloads to 240 carloads which indicates that GDR coal stocks continued to increase. [redacted] The number of empty cars (674 cars) dispatched for coal shipments indicates an increase of coal imports. Grain imports from the USSR decreased from a daily average of 150 carloads to 113 carloads.
